

## COLLE' KHARIS TO RELEASES ANTHEMIC CELEBRATION OF CARIBBEAN UNITY, HERITAGE, AND WEST INDIAN PRIDE WITH NEW SINGLE "CARIBBEAN BLOODLINE"

International award-winning reggae artist Dr. Colle' Kharis is set to release his latest single, "Caribbean Bloodline," on Friday, April 25th. This roots reggae anthem serves as the first single from his highly anticipated upcoming album, Lot 13, set to release on June 11, 2025.

“

*"Many lands divided by water with a shared destiny."*

With lyrics that celebrate the region's strength, resilience, and cultural connection, "Caribbean Bloodline" honors the diverse nations of the West Indies—from Jamaica to Guyana, Trinidad to Barbados, and every coast in between. The song speaks to what unites the region: a shared history, deep family bonds, and collective pride.

“

*"This is more than a song—it's a salute to who we are as a people," says Colle' Kharis. "Our culture is our legacy. And through this anthem, I want the world to feel that pride."*

Backed by a hypnotic roots reggae beat and a hook that echoes with love and pride—"I love my *Caribbean bloodline*"—the song is both personal and pan-Caribbean. It highlights the vibrancy of the culture, the playful island rivalries, and the deep sense of unity in both struggle and triumph.

“

*"Don't test we love—it run deep like di sea. If yuh chat 'bout one, yuh affi deal with all a we."*

Just in time for Caribbean-American Heritage Month and Carnival season, "Caribbean Bloodline" invites listeners around the globe to wave their flags, turn up the volume, and embrace the rhythm of their roots.

**"INNA DI HEART OF THE CARIBBEAN WE DEFINE OUR LEGACY"**
